Customer testimonials

Our numerous offers support founders in a variety of ways. We had a few of them express their views on how we helped them on their journey of self-employment.

Rowcycle

The TUGZ not only supports us in the planning and development of our start-up, but also made a very professional appearance with the Rowcycle at the Beach and Boat Fair 2018. Thanks, without you that would not have been possible."

Henrik Pahlitzsch from Rowcycle,

Urwahn

A creative and quiet work environment was as important to us as the constant exchange with other start-ups, as we all end up facing similar problems. Therefore, we used the CoWorking Space managed by the TUGZ to realize our visions in an open office atmosphere.

Filterize

With Jana Görs, we have found a virtual team member at Filterize who can help us get from the first prototype to a business, and their experience in starting a business, innovating, and looking at what customers really need helps us to keep focus on key construction sites in the development of our start-up.
