SLM/LMF

Users of the Additiv+ have access to our SLM/LMF Rapid Prototyping System

Training period for independent usage: approx. 20h

Trumpf TruPrint 1000

The Trumpf TruPrint 1000 is a LMF (LASER Metall Fusion) system for direct printing of metallic materials.

Maximum component dimensions

Diameter: 98 mm; Height: 100 mm

Laser power

175 Watt

Layer height

0,02 mm

Protective gas

Argon or nitrogen

Control software

Trumpf OS

Slicer

Materialise Magics with trump postprocessor

Machined materials

Stainless steel (1.4404, 316l); tool steel (1.2709); and many more.
