Enrollment

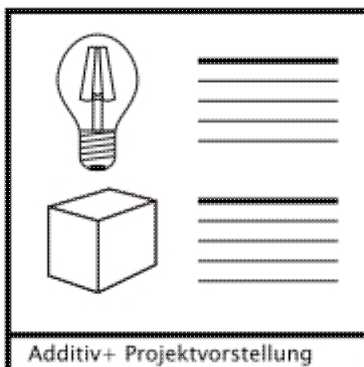

How does it work?

The idea

Are you students or employees at a research institute in Saxony -Anhalt? You have an idea for a new product, a new service or a new process?

Very good! You made the first step already!

The presentation template

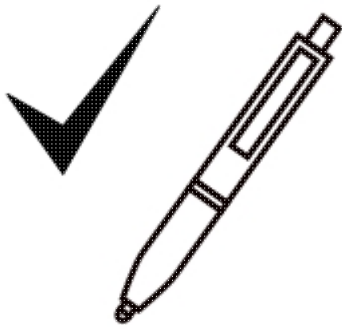

Now it is time to make your idea more specific, which machines do you want to use? How does your time plan look like? Make some concrete plans with our presentation template.

The first contact

Tell us about it! Send a Mail to holger.fritzsche@ovgu.de with your presentation attached.

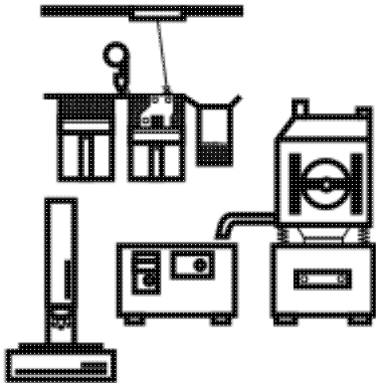

You do not like that because you are scared that someone takes your idea away? This fear can be taken from you. All employees have signed non-disclosure agreements as part of their contract. You are still unsure? Call us: 0391-67-57037

The usage agreement

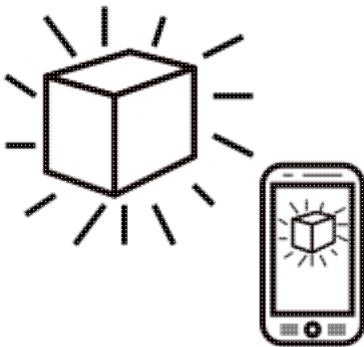

We look at your presentation and invite you to a first conversation. There we will talk about potential problems we found.

Afterwards you will be registered as an official user as we are a project that is funded by the EU, however because of that the usage of the machines are for free.

The learning phase

In the InnoLab we are working on the medical technology of tomorrow - for this we teach you the knowledge of the production (CAD, 3D printing, etc.) to the testing in the simulation theatre and enable an independent operation of the medical devices.

The project documentation

How is your project going? Have there been throwbacks or even better some successes? How does your prototype look? A picture is taken quickly and will help us to improve our support. Send us a short project update from time to time.

See all the MakerLabs available at OVGU: Download our digital Booklet in English

Requirements

In order to use the ego.-incubators the following conditions have to be met:

- Project presentation with targets and timeframes
- Students or academic staff or peers (artists, physicians, Exist scholarship holders, graduates / graduated employees with founding intentions) at a university in the state of Saxony-Anhalt
- No pursiut of economic activity through the user of the incubator

If you have any questions, please contact the supervisor of the respective ego.-incubator or directly contact the TUGZ
