FinTech - Financial Technology

What is the FinTech Incubator?

The ego.-INCUBATOR „**FinTech Financial Technology**“ is a real laboratory for the development and testing of innovative concepts and solutions. Their progressive digitalization and the increasing acceptance of cryptocurrencies, in particular blockchain technology, will have a significant impact on the real economy industry and the banking sector in the future. The expected disruptive changes will create new innovative products and services. The aim of the FinTech ego.-INCUBATOR is to promote students interested in founding a company as well as scientific employees in the development of product and service ideas in the area of financial technologies. On the way to a successful FinTech start-up, the innovative strength of the participants is driven by the use of state-of-the-art hardware and software applications, and the incubator is constantly being developed further. The participants receive the necessary knowledge to set up their own company and are trained in their ability as future entrepreneurs.
