Firmenkontaktmesse at the OVGU

The recruiting event at Otto-von-Guericke-University Magdeburg for a perfect career start

Due to a rapid change in the world of employment, it is becoming increasingly important to orientate oneself already during the studies and to create the basis for the future career path through contacts with the practice.

The **Firmenkontaktmesse Magdeburg** has set itself the goal of bringing companies and students together. Students can inform themselves about future employers and their offers. Companies can get to know young people and make initial contact talks.

The Firmenkontaktmesse at the OVGU has established itself as a **successful event** in this sector in recent years and has become a solid and successful institution for companies, graduates and students at the university. The number of participating companies and number of visitors has grown steadily in recent years, and for the first time in 2014 it was extended to 2 days due to strong demand. More than 30% of the companies book their stand right on the fair day for the coming year. At the turn of the year, the previous events were always fully booked, which speaks for the quality of the Firmenkontaktmesse Magdeburg.

The event will be accompanied by more than 40 corporate short lectures, a **JOB-SPEED-DATING & Career Café**, organized and offered by OVGU Career Service, **free application photos** for each registered visitor, an extensive job market with more than 800 job opportunities and one professional personality analysis „Golden Profiler of Personality“ (G.P.O.P.), supported by the company MLP.

Interested? Then visit us or request the exhibitor documents. Click here [**Request exhibitor documents**](#).
