The fairs presented represent a selection lost, which was developed as part of the joint project "Research for the future", by the participating institutions from Saxony, Saxony-Anhalt and Thuringia and which is based on the profile of the universities and universities of applied sciences of the feredal states. A joint participation will happen, when there are enough interested parties from the federal states and if there are enough personnel capacities.

In addition, participation in the following trade fairs would be interesting to us:
