

TRANSFER AND ENTREPRENEUR CENTRE

Intellectual property rights and patents

We offer a **wide range of services** for scientists on **intellectual property rights**.

This includes:

- **Supervision** of intellectual property rights in the context of **registration** and **granting**
- **Research** of intellectual property rights (e.g. Novelty, FTO), **patent monitoring**
- Creating **patent portfolios** and **rating** patents
- Review of protective rights situations and **infringing objects**
- Participation in the preparation of the **contract documents**
- Participation in **adversary proceedings**
- Coordination of work with **external lawyers**

Comprehensive research on the state of the art can be provided to you by the Patent Information Center (PIZ) of the Otto-von-Guericke-University Magdeburg.
