Trenux makes 2nd place of the BESTFORM-Awards

25.06.2019 -

On Monday the BESTFORM-Award 2019 for creative ideas was awarded and the founding team of Trenux has made **second place**. In total, more than 70 projects have been submitted.

The startup developed the "**Boot for the bike**", which can carry weights of up to **40 kg** transportieren kann. The Jury justified their decision by saying:

„The Team found a solution to **everyday cycling problems**. Tinker's thoughts turned into a product that also convinced us that **sustainability** was the watchword and **attention was paid to details**.“ We congratulate on the **successful participation** in the state competition.

The **first place** of the BESTFORM-Awards went to the development of a **sports and dance rollator**, which offers a greater variety of movement opportunities for seniors and handicapped people.
