Startup School

Visit our Startup School - whether you are a single person or a team! At Startup School you can develop your personal skills, your business and your product. It prepares you for the challenges of founding.

After participating in our four workshops, you then worked out a **rough business concept**. This will convince your customers, inventors or funding agencies of your idea.

Participation in the project TUGZ-Impuls! is done by submitting all necessary participant documents. Contact your founding consultant or write an email to tugz@ovgu.de for further information.
