International Startup School

The International Startup School is a one semester program, specially tailored to qualify International Students of the OvGU, who are planning to start their own company or work for a startup.

Throughout the semester, we aim to accomplish the following:

- encourage and inspire International Students to consider starting a company as a way to positively impact the world
- teach International Students about how to start a startup, and equip them with the right resources and tools
- build a community of international entrepreneurs who can encourage and teach each other
