International Startup School

The International Startup School is a **one semester program**, specially tailored to qualify International Students of the OvGU, who are planning to **start their own company or work for a startup**.

Throughout the semester, we aim to accomplish the following:

- **encourage and inspire** International Students to consider starting a company as a way to positively impact the world
- **teach International Students** about **how to start a startup**, and equip them with the **right resources and tools**
- **build a community** of international entrepreneurs who can encourage and teach each other
